When I did that I was greeted with a. How

Please help others: Like this post and share if you find it helpful. Thanks. A: You will have to buy a new ink cartridge to do this, but before doing so, your printer will only be good for about 75 pages, so before buying a new cartridge, try to disable the re-inking option in your printer. To do this, follow these steps: Open the Program Manager on your computer. Select Printers > right-click the printer > Properties. Click "Printer Settings". Click on the "Ink Change" tab. Uncheck the "Automatically re-ink printer with ink cartridges" option. Click "OK". The next time you want to print, the ink will be used up, and the printer will warn you of a low ink warning. After this, you can buy a new cartridge. The new ink cartridge will be depleted the first time you print, so you should also uncheck the re-inking option if you're having ink issues. s, siehe auch EPSTEIN, James E., Whigs, Hunters and Revolutionaries: Political Culture in the United States, 1789-1830, 1978.
