It does not require a router. The Boss supports all the major browsers, and it is compatible with both Mac and Windows platforms. The

### **What's New in the The Boss?**

The Boss is a switch sniffer, easy to configure, for Internet monitoring and control. Unlike spyware-based Internet activity monitoring products that need "bug implantation," The Boss is an eavesdropping program that uses a switch sniffer to capture and analyze communication traffic over a computer network. The Boss not only logs in real time URL visits, Email, chats, games, FTP, and data flows, but also takes webpage snapshots, duplicates Email and FTP copies, records MSN messenger content, and gives statistical reports. It freely restricts online activities with time schedules and according to customized filtering Internet rules. Once installed, the program will automatically set up itself and perform content monitoring and access control to keep family members or employees accountable for their actions. EspionageGuard is a powerful and easy-to-use spyware for Windows which is designed to perform various spying activities on the computer. It has been tested and approved by millions of users and has one of the highest ratings. Secret Webcam Viewer is an effective online surveillance software, which can secretly record the video and the audio from a user's web camera. No matter what operating system the webcam is running on, like Windows 98/2000/XP/2003/Vista, Secret Webcam Viewer can secretly monitor and record the video and audio on the user's webcam. Secret Webcam Viewer is an effective online surveillance software, which can secretly record the video and the audio from a user's web camera. No matter what operating system the
