System Requirements:

Ubuntu 16.04 & later AMD PRO ATHLON II X4 620 2GB RAM 20GB Hard Drive Space Requirements:
Arch Linux Since installing Debian is the first step towards Arch, you will need to make sure you install Arch properly. We advise you to install Arch from scratch, making sure the proper partitions are set up. When you have that done, do a clean install of the Debian package, without overwriting your previous installation
