+ Create and design your own disc art! + Import images from the file system + Import images from removable media (USB- and SD-card) + Import images from network resources + Print your disc cover! # Design your own disc cover! AVS Cover Editor has a simple but powerful interface for defining your disc cover. The starting page is designed to show just the area you need to get your job done. # Import images from the file system AVS Cover Editor lets you import images from the file system, for example from USB or SD-drives. You can import JPG, PNG, BMP, ICO, EMF, WMF, SVG or PNG-24-images. You can also download images from the web and import them, if you find an image that would fit your needs. The image will be positioned exactly on the right place on the disc cover. # Import images from removable media (USB- and SD-card) AVS Cover

Editor lets you import images from your USB- or SD-card. You can also import graphics from the clipboard, allowing to easily transfer image files between applications. The images you import have the size defined by the scale used in the cover creation process. # Import images from network resources You can import images from network resources like FTP-servers, Amazon S3, Google Storage and your local network. AVS Cover Editor will try to determine the size of the images on it's own. Please note that at the time of this review (the latest version is only available for Windows, OSX and Linux) this functionality is only available to Windows users. # Print your disc cover! Now that you've designed your cover and want to print it, you can do it directly from AVS Cover Editor. For more information about general use features of AVS Cover Editor, please visit the website: Capstone for Better Alumni Engagement The School of Design opened a new capstone studio course in February, responding to a growth in the number of students that is comparable to the number of faculty positions. In this case, the increased numbers are bringing a heavier demand on space at a time when work space in the MIT campus is increasingly limited. The effort has broadened the scope of the School of Design's capstone studio course, which is primarily designed to help the students apply their skills and knowledge in the 09e8f5149f
