Conclusion:

July's mappack was released by Oone and his assistant WinterbOtt, who created a physical map for Vampire County as an example. It's a great map so I highly recommend and use it. When I'm on a map with a lot of detail, I like to work with that type of maps.

The map supports hundreds of different races and classes, 40 spells, over 40 weapons, ubers with different stats, levels, and more. If you like to play the classic game, they added some great new features like:

- Dungeons and Crafting / Alchemy
- Over 130 new OARs for new equipment
- Rollable backups of maps
