The Exodus Story Generator is a free and easy software package designed to give you the story of your life in a cartoon based on your role. It is a 100% free and legal software based on the Linux platform that allows you to choose your role, your background and your mental state at the time of your birth. From there the software provides you with a randomly generated story based on your role and your name. It's all described in a comic style using a wide selection of drawings and cartoons which you can change at will. It's a great tool to use when you are having difficulty setting a goal to yourself or have a hard time motivating yourself to do something. The main screen allows you to select the type of role you would like to be (President, Queen, Actor, Artist, athlete etc) or alternatively leave the role completely blank, entering the personal information. Another option to select is your background, which can be either natural or unnatural. This will be the background for your role and it is possible to select from four different backgrounds, the last of which is the default (sunset/sea). You can also choose to start your life with a high level of mental or low level of mental state, or with a low or high level of motivation. You can then choose what the theme for the story will be, the style of portrait or the language, the audio track and even the credits. It's also possible to select a role for your child (baby or child), and even enter the date of birth. Your children will also be given a role, a background and a mental state if you wish so. Everything is well set up for the generation of the script, and the language and style of language will follow the origin of the text (British, American, French, German, Russian, etc). The actual generation of the story is quite fast and as you read through, you will get the feeling that the computer has created a very realistic story for you to follow. Evaluation and conclusion There are different roles to select from and if you go through the process of creation and selection, you can even end up following the story of another person's life. According to the brief description offered by the creators of Exodus, you can use it to create the story of your life or the story of a friend, a family member or even yourself. This is a well-developed application that provides you with an unlimited amount of b7e8df5c8
