The new animation system will let players express themselves and their game style even more, while also making them more fluid. “HyperMotion Technology” is different from other game engines and animation systems as it is driven by real-life data, which makes it different from any other game engine on the market. The new system will be used across all the game’s controls and animations, giving teams more options during gameplay. The first part of the game engine’s development will be working closely with the wider football community, including the Premier League, Professional Football Players Association, and FIFA Advisory Council, to receive feedback on the design of the player models and kits, and how to make gameplay as authentic as possible. The game engine team is also going to evaluate how the new engine will create game play effects. “It is an honor to have the opportunity to be a part of one of the biggest sports franchises of all time. FIFA 20 was a huge step in the right direction in this very exciting new era of soccer games.” said Luis Fernando ‘Ferb’ Moreno, Global Technical Director at EA Canada. “HyperMotion brings us one step closer to creating the most authentic FIFA experience yet.”

Full game features and details: BE THE GAME BE THE GAME Let’s face it, FIFA is the best soccer game of all time. FIFA 20 broke new ground as the first installment of the storied franchise, and built on the foundation of last year’s masterpiece. As the present goes towards the future, we’re heading in a new direction with the introduction of “HyperMotion” technology. Help us build out the future of FIFA and be a part of the most complete game yet.

HIGH OCTANE ACTION The additional animation control provided by the new physics engine is bringing the game to life, with more fluid runaways, faster tackles and more expressive celebrations. Whether you’re willing to get dirty in the tackle or play for the flair, you can express yourself in new ways. High octane action is no longer something of the past.

REAL WORLD FOOTBALL Building upon the physics engine’s commitment to realism, the new engine has always allowed for the most authentic player movement, but we’re taking it even further. The new animation system draws on data gathered from real-life players playing the highest intensity match (also

What's new:

- **Master the new hypermotion technology on the pitch. You'll see new techniques on the ball making decisions even easier and give you the ability to dribble through players.**
- **Make every on-pitch decision with Team Shape, an all-new way to control your players at every moment of every match. Using their body shapes, react to threats before they happen or change the entire shape of your team mid-match. For example, if someone overloads on your right, dribble towards the left wing.**
- **Use the new Life Meter on the pitch to set up a stunning tackle or score a goal. See how much energy your players have left on the field at any time.**
- **In the Champions League and more than 70 competitions around the world, create your dream team of 12 players with FIFA Ultimate Team and fight your way to the winners' circle.**
- **With new Resilience rewards in FIFA Ultimate Team, you can now get goals and assists for your players when they are hit, making you the best team on the pitch. Alliances in Seasons and Leagues also let you share your tactics with friends and form an alliance in order to compete with each other. Once you join, all of your player data is shared across the entire alliance.**
- **With new player roles, Defensive Midfield, Forward, Goalkeeper, and Intermediary, a variety of new tactics and styles of play help you become a high performing footballer.**
- **Attacker, Midfielder, Defender and Targeter roles are blended with the strengths of each to create a new range of player roles that are just as varied and engaging as ever before.**
- **New competitions give you the chance to dominate other clubs in Europe, take to the field against the best local teams and ambitious amateurs, and even compete in local fishing and kayaking tournaments.**
- **The new knockout style, Pro Clubs and format gives you**

the chance to compete in a new series of epic competitions.

- **The new transformation, injury and illness system allows you to heal quickly when you suffer a knock. Overcome injuries, illnesses or to simply exchange player positions while on the pitch.**
- **Playmaker, Attacking Midfield, Center Midfield and Wide Forward roles are now available for the gameplay-first midfielder, moving Away**
