cahayt5ediciontestedQ: Heroku : Export
existing DB as a ZIP file I have an
existing rails app on Heroku that I want
to export as a ZIP to upload on a new
server so I can simply deploy it. I've
tried to manually export it using

various commands including dumping the database directly from Heroku and then doing a manual import, but that didn't work. I tried using the Heroku export tool but the resulting ZIP file was corrupted. This is the command I've been using: `$ heroku db:export MIGRATE=false | gzip -9 | heroku db:import --app` However, whenever I try to use this command I get the following error:

```
