His remains have been identified after being found in an Idaho mine, and police say that after a visit to the site, two other sets of remains were found in the same hole. Authorities say the bones are not those of the missing boy, 7-year-old Kyle Larson. (Family of Kevin Brown via AP) This undated photo provided by Family of Kevin Brown shows Brown. His remains have been identified after being found in an Idaho mine, and police say that after a visit to the site, two other sets of remains were found in the same hole. Authorities say the bones are not those of the missing boy, 7-year-old Kyle Larson. (Family of Kevin Brown via AP) BOISE, Idaho (AP) — Two sets of remains have been found in an Idaho mine, and police say that after a visit to the site, a third set of bones was discovered nearby. The bones, found in separate holes inside the mine, have not been positively identified as those of 7-year-old Kyle Larson. However, police said on Monday that the remains were consistent with the boy's remains. Searchers resumed their search on Monday for Kyle, who went missing in January after

TEAM.R2R.Roland.Cloud.Emulator.v1.1.0-R2R/R2R.nfo.Effect of dietary fat content on hepatic pyrimidine and purine nucleotide metabolism in growing beef heifers. To determine the effect of different dietary fat content on pyrimidine and purine nucleotide metabolism in beef heifers, 11 purebred Angus heifers (506.4 +/- 4.6 kg of BW and 6.9 +/- 0.2 yr of age) were used in a replicated 4 x 4 Latin square designed to produce four treatments. The four treatments were (1) a control diet containing 20% dietary crude fat (control), (2) a diet containing 40% dietary crude fat (high-fat diet), (3) a diet containing 20% dietary crude fat and 25 mg of clopidogrel bisulfate/d, and (4) a diet containing 40% dietary crude fat and 25 mg of clopidogrel bisulfate/d (clopidogrel) in a.25% all-branched-chain (.25%ABC) canola oil (protein source) administered once per d. All heifers were fed individually and grazed.4% (DM) of BW per day for 2 wk during each period and then were slaughtered. The three low-fat diets resulted in a higher (
