Even if current tax revenues were not in a state of rapid decline relative to the economy, far short of the projected 60 percent of GDP it will have to be if those revenues are to be sufficient to cover projected outlays of half a trillion a year, as is likely, whatever the economic situation, the burgeoning federal debt will have to be paid for out of some combination of increased borrowing, higher tax rates, and rolling up debt in future years to finance earlier outlays. High taxes or higher debt service can and have been imposed on a fully solvent state in order to raise more revenues, but never on a single-payer, union-wage public employer whose fiscal capacity is dependent on the largess of the social welfare state. That's the origin of the phrase "beggar thy neighbor" as a description of the policy the government now pursues, not only from its international partners, but also from its closest allies, as it presses them to agree to higher taxes or more borrowing, within the limits of a debt that would be unthinkable without the myth that Roosevelt destroyed the private economy in 1933. The New Deal's gifts of the social welfare state to the political system of the Democratic Party, and along with it the progressive coalition's c6a93da74d
